# General Information

**Music Style:** Funk Rock / Alternative Rock  
**Founded:** April 2015  
**Location:** Oxford, UK

### Description:

Since our debut in April 2015, Red Hot Chili Peppers Experience has delivered over 150 electrifying performances, paying tribute to the world's ultimate funk rock legends. From UK festivals like Kendal Calling (Lake District) and Poole Harbour, to international stages in Bahrain and Dubai, we've set stadiums bouncing, turned festivals into singalongs, and made intimate venues feel like LA's Troubadour in '91, bringing the Chili Peppers' spirit, sound and energy to life for fans near and far.

As the UK's Funky Monks, we pride ourselves on capturing the essence of the RHCP sound. We don't just play the songs - we channel that sweaty, electric chaos that made RHCP legendary. Every slap bass line, every Frusciante riff, every Kiedis howl.

With vibrant spirit and undeniable passion, we celebrate the unforgettable songs and legendary shows that have made the Chili Peppers global icons.

Some of their most memorable and influential hits include "Under The Bridge", "Give It Away", "By The Way", "Dani California" and "Californication".

Every note you hear during our performances is played 100% live. No backing tracks. No shortcuts. Just four musicians who live and breathe this music, covering the Red Hot Chili Peppers' greatest hits from across the decades. Our attention to detail, true-to-the-bone performances, and passion for the music have earned us a loyal following and enthusiastic reviews wherever we play.
